

Radiographic Testing I

Provider: Alaska Technical

Length: 40 Hours

Cost: \$1,000

Cost Unit: Cost of the entire program

Website

<http://www.alaskatechonline.com/>

This course is designed for manufacturers, service organizations and overhaul agencies who require their technicians or engineers to be trained in the application of radiographic techniques. The course covers both X and Gamma Radiography with an approximately equal balance of theory and practical sessions. As well as working through their own supervised practical exercises, students will receive full instruction on darkroom procedures and radiographic interpretation. The Level I course is intended to introduce and provide participants with the theory and applications of radiographic inspection. The course satisfies the training hours needed for Level I certification in accordance with SNT-TC-1A, ANSI/ASNT CP-189, and NAS-410.
